The IB Middle Years Programme (MYP) at Europa School

Planning for the MYP e-Assessments 2026-27

The IB Middle Years Programme (MYP) at Europa School

- Europa School is an **IB World School**, with great success in the IB MYP: **99%** pass rate across all subjects**; 88% achieved strong pass** (MYP grade 5 & above) & **96% achieved standard pass in English and Maths** (grade 4 & above)
- **S4 2025/26 -** our fourth and largest cohort of the IB Middle Years Programme (MYP), leading to the **MYP Certificate** at the end of S5 (summer 2027)

The MYP Certificate

Minimum 6 out of 8 subjects:

1. Language & Literature
2. Language Acquisition
3. Individuals & Societies
4. Mathematics
5. Sciences
6. Arts, PHE or Design

Core:

- Personal Project
- Interdisciplinary Learning
- Service as Action (not graded)

Europa School S4/5

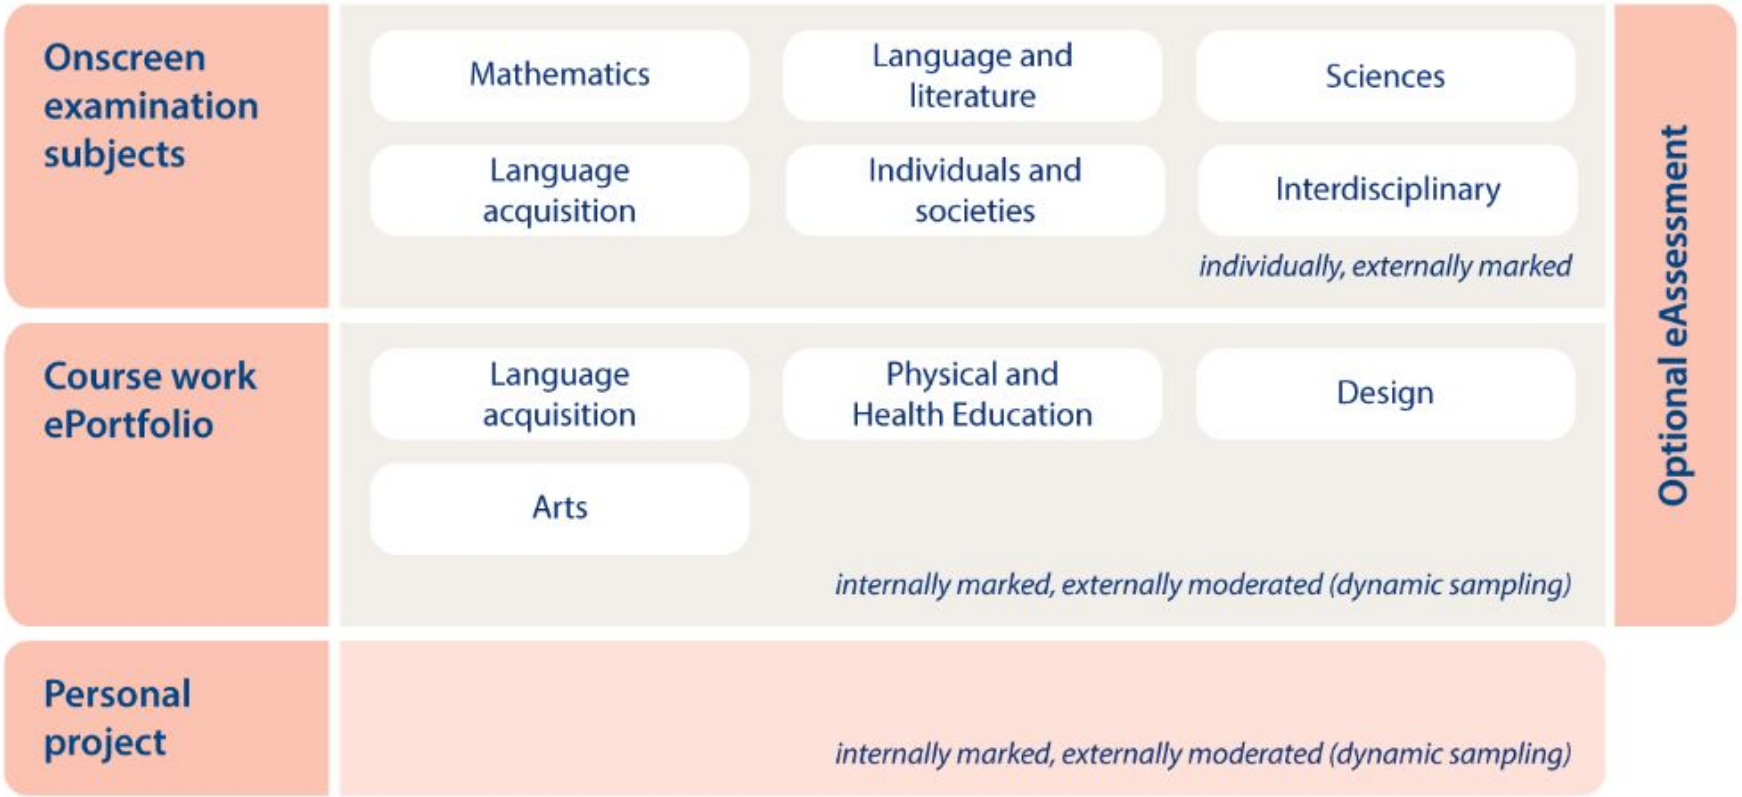

On-screen e-Assessments in:

- **Language & Literature** (English)
- **Language Acquisition** (L2 Stream Language - French/German/Spanish) + **Language Acquisition** (L3 - French, German, Italian, Spanish)
- **Individuals & Societies** (Humanities - Economics, History & Geography - 1 integrated Humanities e-Assessment)
- **Mathematics** (Standard or Extended)
- Three sciences: **Biology, Chemistry & Physics**
- **Interdisciplinary**

e-Portfolios:

- Art, Design, Music or PHE
- Personal Project

External assessment in MYP Year5 (S5)

Requirements to achieve a MYP Certificate

The IB will award an IB MYP certificate to each candidate who has:

- gained a grade total of **at least 28 points from six subject groups**, the Interdisciplinary on-screen examination and the Personal Project combined, **out of a possible maximum of 56 points**
- gained **at least a grade 3 in at least one subject** from each subject group
- gained **at least a grade 3 for the Personal Project**
- gained **at least a grade 3 for the Interdisciplinary** on-screen examination
- completed the school's requirements for Service as Action

https://www.ibo.org/globalassets/new-structure/recognition/pdfs/ib-myp-course-results-certificate-2016-en.pdf

MYP Bilingual Certificate

Awarded to students:

- who complete the **Integrated Humanities e-Assessment** in the second language (currently available in French & Spanish)

OR

- Who complete the **Personal Project** in the second language (French, German, Spanish or other language - available on application)

Individuals & Societies (I&S) in the stream language

- S4 & S5 I&S History and Geography are taught in stream language; Economics is taught in English or Spanish.
- The e-Assessment is not available in German; History & Geography moves into English for S5D.
- We encourage students to complete the Personal Project in German and to sit the I&S e-Assessment in French or Spanish.

Languages in the e-Assessments

Language Acquisition Phases:

- **Stream Language:**
  - By S5 students should be at Phase 5-6 (Proficient)
  - Some will be Phase 4-5 (Capable)
- **Language 3:**
  - By S5 students should be Phase 3/4 (Capable)
  - Some will be Phase 2 (Emergent)

Students will be entered in the exam phase appropriate for their level.

L3 French, Spanish & Italian

- Currently no e-Assessment available in Italian
- Alternative assessments eg DELE (French), Cervantes (Spanish) & Perugia (Italian)

Assessment: 25% Oral (internally assessed); 75% written exam

The Personal Project

The Personal Project is a culminating element of the MYP program which is completed in MYP Year 5 (S5).

- Students explore a passion or interest of their choice.
- Create a product/outcome.
- They produce a report, reflecting on the process.
- They share their interests with the wider school community.

Students are encouraged to complete the PP in their stream language (German, French or Spanish)

The Personal Project: Examples

Inquiry Question	Learning Goal	Product/ Outcome
Can I raise awareness of genetic diseases through animation?	My learning goal is to research a genetic disease and its effects and treatment.	I am going to create an animation that raises awareness of the disease and how it works.
Can you make a musical instrument from rubbish?	I will learn about how the structure and materials of different musical instruments affect the sound.	I will create a functioning musical instrument that is made from rubbish.

The Personal Project

The Personal Project Timeline

- Spring - summer 2026:
  - setting a goal
  - undertaking research
  - developing an action plan with clear success criteria
- Autumn 2026:
  - Taking action
  - Maintaining a process journal
  - **Exhibition (for school community and parents)**
  - Reflecting and evaluating
- Winter 2026/7:
  - Completion and submission for assessment by end January

An introduction to the Personal Project

Process Journal

This can be digital or physical. Students must bring it to **every** meeting. Some students really struggle with documenting everything, so monitor this throughout!

MYP Art / Design / Music PHE - Assessment by e-Portfolio

1 November 2026:

- ***Release of Unit,*** this includes Global Context, Concepts and Inquiry Question (in other words the topic)

- Students are supported in planning, researching and preparing their e-portfolio.
- Each portfolio involves research, planning, creating and reflecting.
- E-portfolios are internally assessed by our teachers, with external support to moderate.
- Sample e-portfolios are reviewed by the IB and grades adjusted accordingly

S5 Music / Art e-Portfolio

Year 5/ Competent stage ePortfolio tasks:

- Investigating
- Developing
- Creating/Performing
- Evaluating

Example of evidence materials for Music e-Portfolio

TOPIC: ***Programme Music***

Inquiry - KNOWING/UNDERSTANDING: **writing a programme note for Debussy's music of that genre**

Action - DEVELOPING; CREATING/PERFORMING: **composing programme pieces; first piece based on a pupil chosen images (work in pairs); second piece as the sonic picture of selected abstract art images by Kandinsky (individual composition)**

Reflection - EVALUATING: **presentation and feedback, peer and personal reflection in a form of a write up for the composed pieces (describing process and results)**

Design e-Portfolio

Sample e-portfolio

Unit Title: Zero Impact Statement of Inquiry: Communities consider sustainable resources available when designing environmentally homes.

1. Inquiring & analysing: establishing the problem and researching approaches to solutions.
2. Developing ideas: design specifications required to complete the project and designs, with reference to target audience..
3. Evaluation of design against design specification and creation of solution

Assessment Criteria:

A. Justification of proposed solution to problem, with reference to specific audience
B. Design specification
C. Construction of a logical plan
D. Evaluation

PHE - Assessment e-Portfolio

An example of an ePortfolio summative assessment for MYP physical and health education:

- **Task 1—as coach:** client interview and video analysis, and benchmark testing (criteria A and D)
- **Task 2—as coach:** training plan and interim analysis of results (criteria A, B and D)
- **Task 3—as client:** demonstration of the skills, techniques and/or strategies developed as part of the improvement plan (criterion C)
- **Task 4—as coach:** evaluation of the coaching plan and of interpersonal skills; and as client: evaluation of performance and interpersonal skills (criteria A, B and D).

Submission by written text, video recording and /or audio.

Interdisciplinary e-Assessment

- Across two of the four core subject areas: ***Language & Literature, Maths, Individuals & Societies & Science*** and focused on the **Global Context**
- **Pre-release material** released 6 weeks before the e-Assessment, with details of the **2 subject groups**
- **Pre-release material** includes background information, disciplinary and interdisciplinary sources.

Example Global Context (2026): *Identities and Relationships*

Focussing on *Who am I? Who are we?*

ALL e-Assessments will refer to the Global context: the Interdisciplinary assessment is built entirely around it.

The Global Context is released in the autumn before the May exam period.

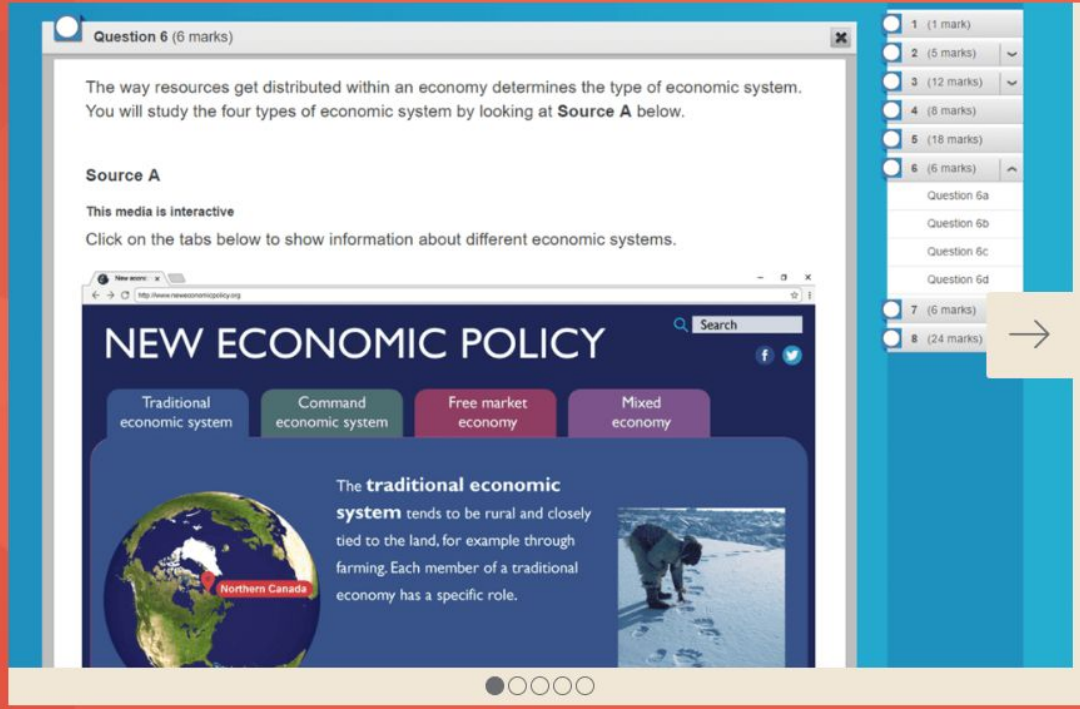

Format of the IDU e-Assessment

3 questions:

1. **Evaluating:** you are asked to show your understanding of the pre-release material:
    - Analysing and drawing comparisons
    - Evaluating impact & showing an awareness of audience & purpose
2. **Synthesizing**: Creating something new using the material, synthesizing and developing your own ideas
3. **Reflecting:** expressing your views in reflection and debate (eg arguing for / against)

What do the e-Assessments look like?

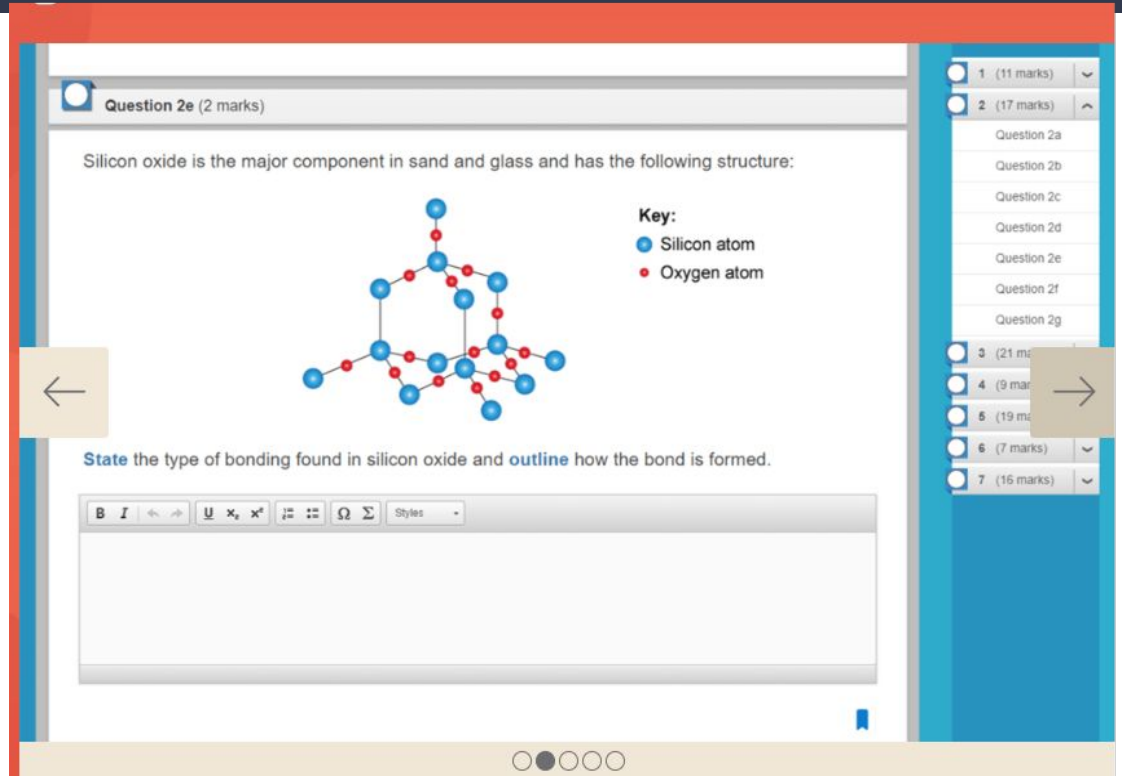

Select the arrows to discover more about on-screen exams.

What are on-screen examinations?

These are two hour examinations taken on a computer. On-screen does not mean online. Computers do not have to be connected to the internet during the exam.

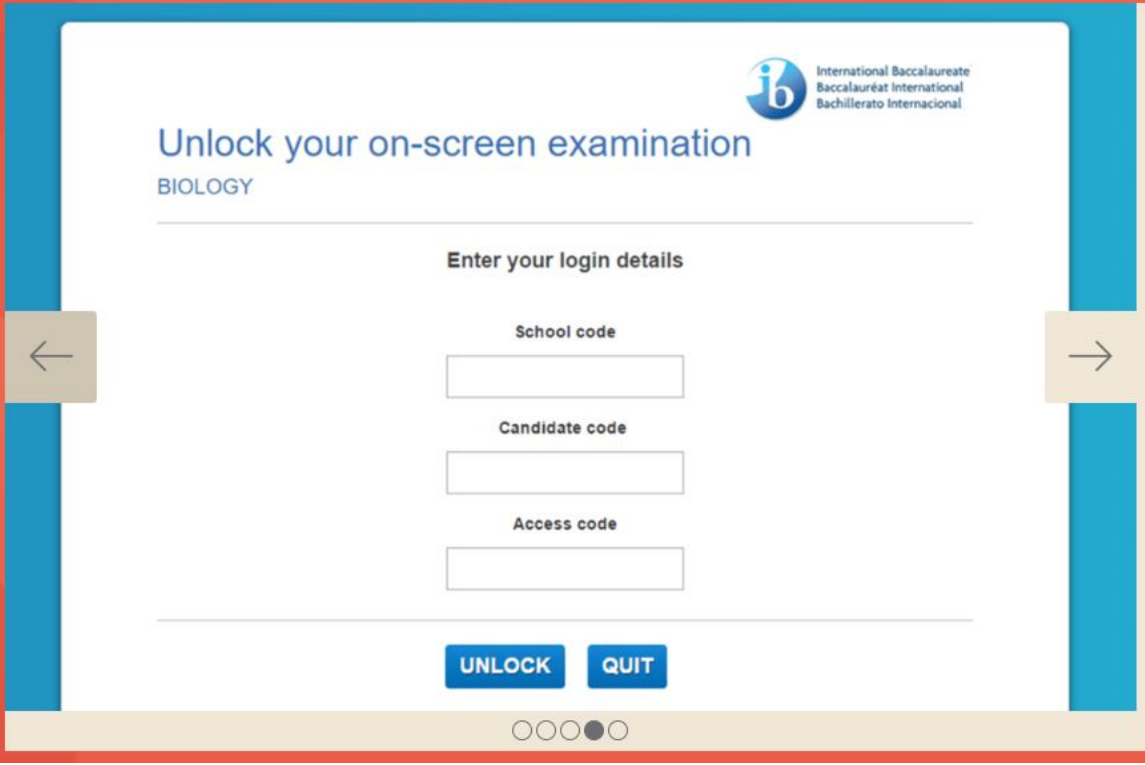

What do the e-Assessments look like?

Students may only use the on-screen calculator and must show their working out in maths on-screen.
They are permitted to have paper to make notes on in all assessments.

All e-Assessments include video and students using headsets (provided).
We also provide keyboards for each language.

How do the e-Assessments work?

How do they work?

The IB sends the exams to schools electronically. They remain “locked” until the passcode is given to candidates on the exam day. Candidates complete the exam on computers under the same conditions as paper exams. After the exam, the coordinator uses the internet to send the electronic files to the IB.

Assessment and moderation

- On-screen examinations are externally marked by trained IB examiners.
- Internal Assessments:
  - Language Acquisition: internally assessed individual speaking assessment.
  - e-Portfolios (Art, Design, Music, PHE and Personal Project)

  Internal moderation of portfolios and external moderation of sample e-Portfolios.

Preparing students for e-Assessments and Access Arrangements

- **On-screen familiarisation** with the e-Assessments
- **Practice assessments** on-screen eg using Assess Prep to build our own on-screen assessments as well as using past papers (in class).
- **S4 summer Assessments:** full e-Assessments (on-screen) in English & Maths and in-class assessments (many on-screen) in other subjects (June 2026) .
- **Mock e-Assessments in January 2027** (using past papers).
- For Maths - practice using the **embedded calculator**: https://www.desmos.com/testing/ibmyp/scientific

Access Arrangements: students in S4/5 are identified by their teachers will be tested for extra time (25 or 50%) or other arrangements (eg quiet room, rest breaks).

Key dates S4 2026

1-12 June 2026 S4 summer assessments (NOT Mocks):

- in-class assessments in all subjects (most on-screen)
- full on-screen e-Assessments in Maths & English

15-19 June 2026 S4 Work Experience week

24-26 June 2026 S4 Ecology trip to Cranedale

Key Dates S5 2026-27

- **January 2027 Mock e-Assessments** (all subjects)
- **May 2027 e-Assessments** are likely to be **Monday 3 May (bank holiday) - Friday 14 May (TBC)**
- **21-25 June S5 Work Experience (dates TBC)**
- **28 June - 2 July ID DP Foundation Week (dates TBC)**
- **1 August 2027- MYP results** are released

Personal Project:

- Exhibition - beginning November 2026
- FINAL submission of report - 1 February 2027

Art/Design/Music/PHE e-Portfolios:

- Release of Global Issue and partially completed planner (eg topic) - 1 November 2026
- FINAL submission of e-portfolio - mid-March 2027

MYP eAssessment
What students say…

"..the examination is more focusing on practical application of what we learned, instead of how well you remember the knowledge."

"I really enjoy the questions on this examination, I thought they were interesting and help me to learn more and think reflectively on all of the questions that has been given, rather than memorizing facts.

I really enjoyed the experience, as I found it to be mentally challenging and stimulating".

"The exam itself was very sophisticated and very well organized. I do think that taking the test on the computer is way easier."

2021 UK ECCTIS study comparing the MYP e-Assessments and GCSEs

IN 2021 the IB commissioned UK ECCTIS (the successor to UK NARIC) to develop a grade-by-grade equivalence to the numerical reformed GCSE.

Full report at:
https://ibo.org/research/outcomes-research/myp-studies/comparative-analysis-of-assessment-in-the-international-baccalaureate-middle-years-programme-and-the-general-certificate-of-secondary-education-gcse--2019/

The equivalence scale is in the ‘supplemental report’.

2019 NARIC study

“The independent comparative analysis of MYP and GCSE assessments found that the two qualifications are comparable. Analysis of the four subjects examined in this study also found clear comparability in terms of the level and range of skills assessed. This review found that while there are some notable differences in the qualifications, these principally relate to the duration and volume of assessment. Lastly, overall, the assessments can be considered comparable in terms of cognitive demand.”

Comparing MYP e-Assessment to GCSEs: equivalence scale

IB MYP e-Assessment Grades	UK (England) reformed GCSE grades	UK (England) Qualification Level
7	9	Level 2
6	7 & 8	
5	6	
4	5	
3	4	
2	2 & 3	Level 1
1	1	
No grade	No grade	No grade

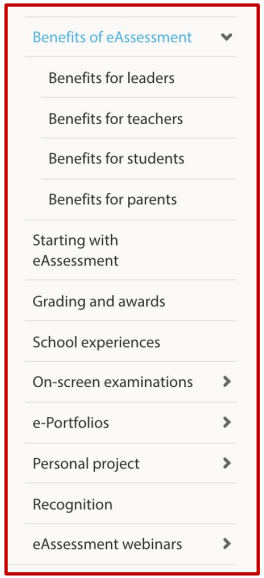

Recognition of the MYP e-Assessment

All e-Assessment subjects in the Middle Years Programme (MYP) have been accepted by Ofqual* and added to the Register of Regulated Qualifications, previously known as accreditation by Ofqual.

Further education (FE) and higher education (HE/universities) recognise the MYP e-Assessment qualification.

- Ofqual is the UK government agency responsible for the regulation of qualifications, examinations and assessments in England.
